- Hunting time is limited to five (5) consecutive days
- Hunting companions are limited to one friend or 2
- All terrain vehicles limited to currently used road
- Camping only in designated areas
- Smoking or open fires are not allowed

## Coldwater Ranch CWMU Description

The Coldwater Ranch CWMU is part of the Bear River Range south of Blacksmith Fork. The South Cottonwood Canyon divides the Unit almost in a west and east half. This canyon ranges from about 6400 feet to 7200 feet in elevation. To the east the elevation doesn't rise much and the area flattens out before dropping down to **5600 feet** on the northeast boundary. On the west half the elevation rises rapidly to around **8000 feet**, then drops quickly to 6400 feet in the north and 7400 feet in the south.

The eastern two-thirds of the Coldwater Ranch Cooperative Wildlife Management Unit (CWMU) is composed of Inter-Mountain Basins Montane **Sagebrush Steppe** (62). In conjunction with this Sagebrush Steppe are large patches of Rocky Mountain **Aspen Forest and Woodland** (22). Towards the middle of the unit these large patches of Aspen Forest and Woodland coalesce into a sizable stand of Aspen Forest and Woodland. Much of the rest of the unit is composed of patches of Rocky Mountain Montane Mesic **Mixed Conifer Forest and Woodland** (32), Rocky Mountain **Bigtooth Maple Ravine Woodland** (23), Rocky Mountain Montane Dry-Mesic **Mixed Conifer Forest and Woodland** (30), Inter-Mountain Basins **Mountain Mahogany Woodland and Shrubland** (44), Rocky Mountain Subalpine **Mesic Meadow** (70), Inter-Mountain West **Aspen-Mixed Conifer Forest and Woodland Complex** (38), and Rocky Mountain Subalpine-Montane **Riparian Shrubland** (77).
